Nursery grown Norway Maples on our Bishop Farm.

SHADE TREES have become a most important plant item at our nursery. Because of the increased volume we are now able to furnish trees in greater variety and at competitive prices. Check our list and compare prices, sizes and varieties.

MAPLES

	1-4 rate	5-24 rate	25-100 rate
Acer campestre (English Hedge Maple), compact headed tree. Grows to 25', sturdy, small street tree.			
6-8' br.	5.50	4.50	4.10

1 1/2-1 3/4"	6.25	5.50	5.10
2-2 1/2"	12.50	10.50	9.00
Acer platanoides Cleveland (Improved Norway). Uniform, upright top.			
10-12', 1 1/4-1 1/2", br.	7.50	6.00	5.20

Columnar Norway Maple on our Bishop Farm, September 1962.

C O L U M N A R N O R W A Y S

A mature columnar Maple; note the narrowness and denseness.

ACER PLATANOIDES COLUMNAR (Columnar Norway Maple)

Various forms of trees are necessary to fit different space requirements of city streets. For this reason we have chosen to grow some trees which have a smaller stature for use in restricted areas. The COLUMNAR MAPLE is one such tree. It has the hardy characteristics of the Norway but has a narrow compact habit of growth. In many instances where there are overhead wires the cost of maintenance is reduced. In narrow lawn stripes the COLUMNAR MAPLE is an excellent choice.

THE NEW HONEY LOCUSTS

Gleditsia SUNBURST

(Plant Patent No. 1313)

The sensational, new two-color tree with brilliant yellow branch tips, appearing to burst with bloom all Summer.

Gleditsia IMPERIAL

(Plant Patent No. 1605)

The graceful, spreading, new Honey-locust that grows strong and straight *without staking*. A favorite of landscape men and tree experts.

Gleditsia SKYLINE

(Plant Patent No. 1619)

Distinctive, stately variety with strong trunk and shapely crown. *Needs no staking*. Dark green foliage has heavy, leathery texture.

Gleditsia SHADEMASTER

(Plant Patent No. 1515)

Princeton's Upright Thornless Honeylocust. Plant Patent #1515. Picture shows 3½ seasons' growth after planting a 1¼" caliper tree.

Gleditsia t. inermis (Thornless Honeylocust), broad, graceful head, grows rapidly

AZALEAS—RHODODENDRONS—PYRACANTHA —EUONYMUS—PIERIS (Andromeda)— ILEX—LEUCOTHOE

These BROADLEAVED EVERGREENS are hardy in Michigan. They can be grown with very little care and give the gardener a great deal of extra pleasure. Adding acidity to the soil once a year in the form of a commercial mix or by using plenty of peatmoss or leafmold is all that is necessary. Avoid wind-swept locations or poorly drained areas.

Juniper chin. pfitzeriana at our Miller Farm.

NOVELTIES . . .

**ADD INTEREST AND APPEAL
TO YOUR GARDEN DESIGN**

We are continuously trying out new and out-of-the ordinary plant material. These plants have been checked by us for desirability and hardiness in Michigan.

(For prices see catalogue)

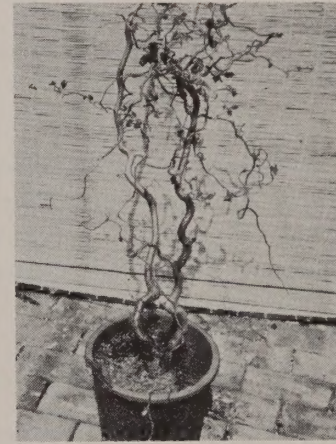

Pyracantha c. lalandi Monrovia
5 gal.

Juniper h. Bar Harbor
2 gal.

Pieris japonica (Andromeda)
2-2½'

*Corylus contorta (Harry Lauder's
Walking Stick)* 3-4', 14" pot
Available now in 2-3' only

ACER PLATANOIDES CLEVELAND (Improved Norway)

ACER PLATANOIDES SUMMER SHADE (Plant Patent #1748) (A rapid grower)

ACER RUBRUM ARMSTRONG (A narrow Maple)

AZALEA POUKHANENSIS, though not a new plant this should and can be used more in Michigan. Perfectly hardy.

AZALEA BOUDOIR, perfectly hardy in Michigan.

CORYLUS CONTORTA (Harry Lauder's Walking Stick Bush)

CYDONIA JAPONICA NIVALIS (Upright, white)

CYDONIA TEXAS SCARLET (Firey scarlet)

EUONYMUS ACUTUS (Improved Coloratus)

EUONYMUS SARCOXIE, upright Euonymus

FAGUS SYLVATICA RIVERSI (River's Purple Beech)

HYDRANGEA PETIOLARIS, artistic vine, clings to walls, flowers in large, flat clusters.

HYPERICUM SUNGOLD, this variety has proven its ability to withstand cold weather. Extremely floriferous.

JUNIPER HORIZONTALIS BAR HARBOR

JUNIPER PROCUMBENS VARIEGATED (Low grower)

MALUS RED JADE (Plant Patent #1497) (Brilliant fruit)

METASEQUOIA GLYPTOSTROBOIDES (Dawn Cypress)

PIERIS JAPONICA, not a new plant but is not used anywhere near enough in Michigan. A Broadleaf, which, with a little extra care makes a beautiful plant all year.

POTENTILLA KATHERINE DYKES, is perfectly hardy here and bears flowers from June to November.

PRUNUS KWANZAN, TREE FORM (Japanese Flowering Cherry)

PYRACANTHA C. LALANDI MONROVIA, a plant gaining tremendously in popularity. Proven hardy in Michigan.

PYRACANTHA C. LALANDI MONROVIA ESPALIER, an interesting change in shape, especially good for the small garden.

TILEA CORDATA GREENSPIRE (Plant Patent #2086) (Straight trunk)

VIBURNUM OPULUS CAMPACTUM (Dwarf)

VIBURNUM TOMENTOSUM MARIESI (Improved tomentosum), blooms very profusely.

TREE PEONIES

TREE PEONIES: This magnificent plant will add distinction and charm to any garden. Their colors are different from those of the regular herbaceous peony — pure yellow, vermillion-orange, reddish violet maroon, two-tones of yellow and orange plus immense whites. They are very hardy and will attain a height of from four to six feet and produce many unusually large flowers on one plant. We have the following varieties in 5" pots which can easily be shipped at any time in the spring or fall.

• 5" pots—extra nice 4 yr. old plants.

	1-4 rate	5-24 rate	25-100 rate
Adzumi kagami , early, semi-double deep carmine. Japanese type.....	4.50	4.25	4.00
Argosy , a single, clear sulfur yellow with red base. A Lutea Hybrid. Makes a nice shrub-like plant for landscape use.	2.00	1.75	1.50
Chromatella , large double pure sulfur yellow with a tinge of salmon. A Lutea Hybrid.	4.50	4.25	4.00
Flambeau , full, double bright salmon red. A great novelty. Lutea Hybrid.	3.50	3.25	3.00
Flora , an immense single pure white. A Japanese type.....	3.50	3.25	3.00
Kuro Botan , semi-double dark maroon red. Blooms freely. Japanese Var.	4.50	4.25	4.00
LaLorraine , large, well-formed soft sulfur yellow with a salmon tinge when opening. A Lutea Hybrid.....	3.25	3.00	2.75

WHOLESALE LIST

	1-4 rate	5-24 rate	25-100 rate
Satin Rouge, double vermillion-orange. A new color in peonies. A Lutea Hybrid.	3.50	3.25	3.00
Souv. De Ducher, immense double bloom of bright reddish violet with a silvery reflex.	2.25	2.00	1.75
Yaso-No-Mine, large double flower of purest white. Strong stems.	3.50	3.25	3.00
Yaso-O-Kine, immense semi-double pure white flower on strong stems.	3.50	3.25	3.00
